

## **Safeguarding Policy – (easy to understand summary)**

The Hungarian Culture & Heritage Society is committed to the safety and wellbeing of all children, young people, and vulnerable adults who attend our events and activities.

We do not provide unsupervised activities for children, and all children must be accompanied by a parent or guardian.

As we develop programmes involving children we are working to put in place designated safeguarding leads, DBS-checked staff, and appropriate policies.

To report a concern or to ask about our safeguarding practices, please contact:
